OKLAHOMA, March 11th.—The prospect of an Oklahoma Territorial Government at Congressional hands in the immediate future has drawn party lines and the dominant parties are waging an aggressive campaign.

The 'negro colonization' scheme and the "sooner" and "anti-sooner" ight lends considerable interest to the Democratic Convention which convenes here to day.

Early this morning the "boomer" delegation began to arrive, mostly "Texans and Arkansaws," and all were armed to the teeth, with flying banners and keeping pat time to the martial music of a dozen brass bands.

The boomers proceeded to the Convention hall, cracking revolvers as they went and shouting loudly for Cleveland. Of all the ludicrous Conventions, this must be awarded the palm.

A Stillwater delegate came weil armed and prepared to resist any aspersons upon his, character which he expected from a certain quarter. He was not disappointed. The two "boomers' freely exchanged opprobious epithets, and when the Chairman appointed Deputy United States Marshals Thornton and Overton to eject the obstreperous "boomers," the uncharitable stillwater delegate intimated in unbecoming language that "certain marital infelicities back in the States" had banished the Chairman to Oklahoma.

An oppressive silence reigned in the Con-

Oklahoma.

An oppressive silence reigned in the Convention. The Chairman stood aghast and his face was a sturdy surprise Anger and fear contended for the mastery of his countenance. The Sergeants at Arms endeavored to remove the Stillwater "boomer," but the effort created a scene of pandemonium. The Convention rose to its feet as one man and several excited "boomers" felt for their weapons.

"Is this here a — Republican Convention?" demanded a way-back "boomer," with a cockleburr in his hair.

Boston, March 11th.—The fortune that awaits the lucky men is illustrated in the report made by a correspondent who recently visited Maine. "Everybody there," he writes, "is crazy over ice. Men are giving up their regular affairs to make monsy on ice. Everyone is at work on ice, filling the ice-houses, building stacks on the river banks, hauling, selling and shipping the silvery ice—silvery in more senses than one. In Bangor and Augusta coal dealers with empty sheds are filling them with ice. The streets are full of teams carrying the precious loads to the storehouses yet unfilled, and actually they are filling the basements of some stores with ice. A company with houses and machinery all on hand and in good shape can house the ice for 15 or 20 cents a ton. Yet a manager of one of the large companies refused to sell for \$9 at 0n, although he could have sold 5,000 tons at \$4 he would have made a clear profit of \$18,000 or so. There is another manager who last September took a contract to deliver 20,000 tons this spring and summer for from 50 to 75 cents a ton. Although this pays him a good profit, on the distant horizen toward the setting sun he sees a golden eagle flying from him representing \$65,000, just the difference from the price he could have obtained it he had waited till the early days of March."

As soon as the bill is before the House for discussion a substitute will be introduced doubling the amounts named in the financial clause. Her Affections Come High.

Chicago, March 11th.—A suit for \$100,000 for breach of promise was commenced in the Federal Circuit Court here to-day against Louis C. Wachsmith, senior member of the firm of L. C. Wachsmith & Co., wholesale clothiers. The plaintiff is Miss Jennie M. Paul, a stately brunette of 25 and daughter of the late A. W. Paul, formerly a prominent lumber merchant. Her attorneys refuse to give any details until the action comes up. Wachsmith is a bachelor, 39 years of age, and quite a favorite in club circles. He is absent from the city at present, and his brother did not have much knowledge of the matter.

Glue Company Failure. Glue Company Failure.

PITTSBURG, March 11th.—The affairs of the Baeder Glue Company of New York and Pittsburg, which failed several days ago, are very much muddled. H. R. The exact amount is not known, but Kern thought it would reach at least \$60,000. Haughey is a brother-in-law of General Lew Wallace.

The will was filed in Marin county to-day, SLIDE NEAR WEAVERVILLE.

WEAVERVILLE, March 11th.—For weeks the mountains have been sliding and doing a great deal of damage, and no one has felt safe in residing or working where a slide was possible, but the most shocking incident as a result of a land-slide occurred here last Thursday, just before noon. The ditch of the Trinity Gold Mining Company passes along the side of the mountain where it can be viewed from the town, and one of the company noticed that a slide of immense proportions had occurred between 11 and 12 o'clock, cutting two ditches belonging to that company, but the worst was not known until Saturday, when a messenger was sent to inquire about the safety of the Sowden brothers, who were operating a claim some distance below the slide. On his return he reported that the two reservoirs above the claim had been completely obliterated and the claim robbed of its pipe, giants, etc., by the immense quantity of variety and started that had swent over it and Alive-Horribly Mangled.

The Union Captures Two of the Men Im ported from the East.

San Francisco, March 11th.—Yesterday afternoon the pickets of the Molders' Union, stationed at the ferry, manage to capture two nonunion men who had arrived from the East and were on their way to the Union Iron Works. The two men were taken to the headquarters of the Executive Committee and from them an agreement entered into between the Union Iron Works and the non-union men was obtained.

It states that in consideration of an advance of railroad fare by the Union Iron Works the latter may retain \$6 per week from their pay until the advance is repaid. The workmen agree to work for one year at 30 cents per hour, ten hours to constitute a day's labor. The two men agreed to stand by the union molders and allege that the cause of the trouble between the Union Iron Works and the Molders' Union was not understood by them until after they had started for San Francisco.

The Iron Molders' Union held a secret meeting last night for the purpose of determining upon some immediate action to be taken against the non-union molders who are expected to arrive in this city during the week. The deliberations of the body could not be learned.

The situation to-day remained unchanged. The rewas no news to be obtained that would show that either side is weakening in the least. ported from the East.

On April 15th the model will be ready for casting, and very shortly thereafter the statue will be shipped to San Francisco. It will cost \$11,000, which sum has been subscribed. House of Comm House of Commons.

Lordon, March 11th.—In the House of Commons this evening, Lord Randolph Churchill, resuming the debate on the report of the Parnell Commission, said that from the beginning-to the end of these proceedings they were visited by their thoroughly unconstitutional character. When the Government decided to act aside the ordinary tribunals it must have held the charges against the Parnellites constituted a prima facte case against the accused. When the Government held that it was a prima facte case it was its duty to presecute them criminally.

constituted a prima facic case agains the accused. When the Government held that it was a prima facic case it was its duty to prosecute them criminally.

Churchill then argued the matter on constitutional grounds, and defied any lawyer to show a precedent or a parallel for an whing-approaching the Government's action in appointing a Commission constituting three Judges to fulfill the functions of Judge and Jury.

He appealed to the House to vote against proceedings so utherly unique and unprecedented. Never within a century and a half had any public man been exposed to such tests and trials as Parnell. Every clause of the inquiry in the House except the first was forced through without debate by the use of closure so ruthlessly that nothing but the most urgent consideration of public safety could justify it. The constitutional party that in 1882 resisted closure now applied it. In 1882 the Government declared that closure was a most unconstitutional and dangerous innovation. In 1888 it used closure in the most unconstitutional and dangerous innovation. In 1888 it used closure in the most unconstitutional and dangerous manner for the purpose of forcing upon its opponents an unprecedented, an unparalled and a tremendous instrument of oppression.

In the vicinity of New York we are told that travel was much retarded by a six-inch fall. A dispatch from Newburg spoke of drifts two feet in hight, and of trains being stopped by them. A Poughkeepsie dispatch told of roads being blockaded by snow a foot deep on the level. Scranton (Pa.) dispatch related that thirteen inches of snow had fallen in that State, and that on the mountain divisions railroads were blocked and trains had ceased running. So the story went on; all over the East the snow fell from six to thirteen inches deep, and drifted to the hight of two feet; whereupon the railroad authorities called a halt, and traffic ceased. A terrible calamity, to be sure. Yet in the upper Sierras, on the east border of California, and in the Shasta mountains on our north, snow fell to the depth of eight, ten, twenty feet before any thought of a blockade was entertained. railway men of California threw themselves ten to fifty feet high.

### CITY ELECTION.

THE RESULT A SURPRISE TO BOTH POLITICAL PARTIES.

Comstock Defeats Gregory for Mayor-Large Majorities for the Other Republican Candidates.

The city election came off vesterday, ac cording to previous announcement, but it did not result, in all respects, as was gen erally supposed it would. There were probably not a dozen well-informed persons in the city yesterday morning who really believed that Mayor Gregory would be defeated in his candidacy for re-election while there were (as the result shows) a majority prepared to vote against him, for reasons best known to themselves and those who influenced their votes. In short Mr. Gregory was defeated by a majority of forty-one votes in a total of 4,793. The vote compares favorably with those of the city elections of 1887, 1888, and 1889, in which were cast, respectively, 4,559, 4,554

publican candidates received old-time ma-E. C. Hart, for City Attorney heads the list of winners with a round 1,500 majority; Warren F. Drew, for Chief of police, follows well up, with 1,199, and M. A. Howard feels perfectly safe with his little 965 majority. The candidates for Trustees of the Free Library received practically all the votes cast, they being on both tickets. Here and there one or another of them lost a vote, but two was the highest number any of the quintet lost in any

Breckenridge, the independent candidate for Chief of Police, received a few scatter ing votes, but not enough to cut any figure in the count—possibly a couple of dozen of less. In the second precinct of the Second Ward somebody voted for E. M. Stevens for Chief of Police, and in the second precinct of the Third Ward one ballot was east for W. F. Knox for First Trustee. Some parties were circulating a ticket con taining the names of the Democratic candi dates, except that of Dillman for Chief of Police, for which had been substituted th name of Mr. Breckenridge, but—as the re

sult shows—without any success.

It is conceded on all sides that Mr. Comstock, the successful candidate for Mayor, is an honest man and a good citizen, and his friends believe that he will make an efficien The Democrats were jubilant over their victory last night, and loud in their praises of the superior generalship of R. D. Stephens, who made their fight with consummate

The defeat of Mayor Gregory was unquestionably a great surprise to his friends, and all sorts of speculations were indulged in last night to account for it. The programme of his enemies had been carried out very quietly, and with deadly effect, During the day it was rumored that the Democratic State Central Committee had sent a large amount of coin to this city to defeat him, but this was not generally be-lieved until the returns came in. These seemed to indicate that there was truth in

The general opinion seemed to be that Mr. Gregory was "knifed" by the friends of those who were defeated at the primaries. and was sold out by those who professed to be working in his interest. There is no question but that he was the victim of the grossest treachery on the part of some persons whom he trusted implicitly.

Mayor Gregory was seen by a reporter last night after he had learned the result and asked to what cause he attributed his defeat. He said that some weeks ago he had been informed that a certain high State official had declared that he would secure his defeat in this election in order to put him out of the Gubernaterial fight, and he now believed that the threat had

The company is strong, also, in good actors, DeLange, the inimitable low comedian, standing in the front rank. But Mr. Graam, Mr. Clark, Miss Reynolds, Mamie Cherbi, Miss Worth and Mr. Porter are al comedians of good dramatic quality This evening the Aronson company wil present for the first time upon the coast the new comic opera "Nadjy," which had a run at the New York Casmo of 300 nights. The theme is said to be one of infinite pirth, the scenery is equally as fine as that hown last night, we are assured, and the ostumery even richer and more brilliant sesides the bright comedy, there are claimed or "Nadjy" many artistic adjuncts to pleas he eye and gratify the taste. Certainly Aronson's troupe, by last evening's fine presentation of "Erminie," justifies the exectation of something still more superior a spectacle in "Nadjy," though musically is not claimed to be the superior of "Er-

ie," if it is its equal. The Congregational Church was nearly filled last night to hear the Fisk Jubilee Singers—there were very few vacant seats ndeed it was an audience the troupe should consider a great compliment, when it is remembered how many jubilee singing companies have appeared here. The Fisks, however, are certainly superior to any that have preceded them. Mrs. Jackson-DeHart is a very sweet-voiced inger, who manages her tones well, and hrows feeling into her method. Mr. Payne is a tenor of much more than averability, while Caldwell, the basso, has a strong, sonorous and sympathetic voice. There are five others in the company. The roupe is the original Fisk University Jubi-ee Singers, and the originator of the abilee concert business. Another and nal concert will be given this evening, with a complete change of programme, and a lower admission for children under 12

## A WIFE'S STORY.

She Tells of Her Husband's Alleged Doings, and He Will Be Arrested. A young woman, whose pinched features and sad eyes gave every evidence that her life is anything but a happy one, presented herself at the District Attorney's office yesterday, accompanied by an elderly lady, whom she introduced as her mother, and stated that she desired assistance from that

Assistant District Attorney Bruner bade The young woman said her name was Mrs. Belle Harris, and that she was the mother of two young children, one being but a few months old. Her husband, Henry L. Harris, was formerly a barber at Touth, and K. streets, but more recently times took part in dive variety performances. For the past year, she said, her husband had been in the habit of abusing her, and has contributed nothing to her hat her body was covered with bruises, which had been inflicted by her husband's

'Why don't you get a divorce?" asked the Assistant District Attorney.

The official then advised her to have her susband arrested for battery, and he pro seeded to draw up a complaint in accord ance with her statement. A warrant was placed in the Constable's hands to be placed in the Constable's hands to be served on Harris. A more quiet election than that of yesterday has not been seen in many a day in any community.

Although rumors were rife all day of considerable scratching—and subsequent events proved that such was the casethere was very little of it done at the polls. As a rule voters presented themselves at the ballot-box with their ballots already attended to, and in exactly the same condition as they were when they left home with them.

In the First Ward, where it was anticipated that there would be considerable life and bustle, it was just the opposite, and had it not been for a little scuffle late in the afternoon at the first precinct between some ball-intoxicated individuals, it would be considered by Rev. J. F. von Herrlich, rector of St. Paul's Church, and was very impressive. Two selections were rendered by a double quartet from the McNeil Club, composed of Messrs. Kinross, Cohn, Blair, Wilson, McClatchy, Carroll, Bruner and Hillhouse, and choir, composed of Mrs. Ross, Mrs. Carter and Messrs. Bruner and Cohn. The last two selections were especially effective—"Not Dead, But Sleepeth," by the choir.

Miss Kaibel was accompanist for the double quartet, and Mrs. Dr. Pinkham for the choir.

The remains will be taken to Placerville this afternoon for interment, by the side of deceased's two children.

The Postal Telegraph Discussed by the Pan-Americans.

WASHINGTON, March lith.—At a meeting of the Pan-American Conference yesterday, a report was received from the committee to consider the best means of extending and improving the facilities for commercial, postal and telegraph communication between countries that border upon the Gulf of Mexico and the Carribean Sea. The committee says that the telegraph rates make it practically impossible to do business over the present lines, and recommend that steps be taken to secure a moderate scale of charges. This falling, charters should be granted to independent cable companies. The committee says that a plan has been discussed by capitalists of this country for the establishment of rapid ste unship service between Tampa, Fla., and Mobile, Ala, and the ports of Colon, Port Limon, Costa Rica, and the ports of Colon, Port Limon, Costa Rica, and the ports of Colon, Port Limon, Costa Rica, and the ports of Colon, Port Limon, Costa Rica, and the ports of Colon, Port Limon, Costa Rica, and the ports of Colon, Port Limon, Costa Rica, and the ports of Colon, Port Limon, Costa Rica, and the ports of Colon, Port Limon, Costa Rica, and the ports of Colon, Port Limon, Costa Rica, and the ports of Colon, Port Limon, Costa Rica, and the ports of Colon, Port Limon, Costa Rica, and the ports of Colon, Port Limon, Costa Rica, and the ports of Colon, Port Limon, Costa Rica, and the ports of Colon, Port Limon, Costa Rica, and the ports of Colon, Port Limon, Costa Rica, and the ports of Colon, Port Limon, Costa Rica, and the ports of Colon, Port Limon, Costa Rica, and the ports of Colon, Port Limon, Costa Rica, and the ports of Colon, Port tee. as it was difficult to find the sentence he would not press the matter.

Edmunds said the Record purported to be a true account of the proceedings, but the Senator from Florida so far forgets himself in the moment of heat as to cause to be printed an apparently carefully drawn-up statement imputing to a Senator from another State, and in new language, a crime.

After some further debate, Call submitted some remarks, in his own vindication, some of Chandler's expressions imputing to him the possibility of provoking homicide.

The vote resulted; yeas 27, nays 11; no quoram. Among the affirmative votes were Gray, Augh. Turpie and Vance. Without disposing of the matter the Senate adjourned. PAYMASTER GENERAL. SALARIES OF JUDGES.

The House Judiciary Committee to day reported favorably a substitute for the Senate bill 74, fixing the salaries of United State Judges at 5,000. The eport says that there is a great demand for an increase of salaries, as the present sums predude the employment of eminent lawyers, really interferes with securing good mayers, treatly interferes with securing good men, and empts our best jurists to resign their places. At oresent the salaries are: Judge Hoffman, San Francisco, \$5,000; Judge Billings, of New Greans, \$4,500, Judge Blodgett of Chicago, Judge Judge Nixon of Trenton, Judge Brown of New Gork, Judge Benedict of Brooklyn, Judge Coxe of Utica, Judge Benedict of Brooklyn, Judge Buer of Philadelphia, Judge Archison of Pittsburg, and Judge Ross of Los Angeles, \$4,000. One Mystery Cleared Up.

Tucson (A. T.), March 11th.—In Sunday's San Francisco papers appeared an item telegraphed from Woodstock, Ont., claiming in a sensational manner, how a young Englishman named Neville H. Pickehall had been enticed to New York by Burchells, the celebrated tragedy participant, and had been put out of the way in order to obtain a thousand dollars, for which Pickehall had mortgaged his farm.

Pickehall was discovered in this city to-day, stopping at the San Xavier Hotel, under the name of Jameson. He at first denied his identity, but finally admitted that he was he party referred to. He says he will leave for his former home to-morrow. He appears to be in his right mind, but gives no reason for his trange conduct. One Mystery Cleared Up.
